

# GIVING

OFFER ONLINE GIVING, PAYMENTS, AND REGISTRATIONS WITH ANY INTERNET CONNECTION, SMARTPHONE, KIOSK, OR TABLET PC

## Online Donations Made Easy—Including Debit-Only

Many organizations feel the pressure to offer online giving but don't know where to begin. Your members can make online gifts and donations anytime with various giving options, including debit-only transactions, while offering the administrator robust reporting capabilities to manage contributions.

## Event Registration Made Easy

Limit the number of registrations that will be accepted; specify the beginning and ending dates and times for registration; select which information is required; calculate fees based on registrants' answers; embed a graphic in a form or upload corresponding documents, such as a liability release form with a sports registration form; let users store their information for convenient access and to provide a complete online history of transactions; and eliminate paper forms to complete.

## Turn Any Windows PC into a Secure Giving Kiosk

Make it easy to participate in events by accepting event registrations and payments with debit or credit cards from your kiosk. No more handwritten forms to fill out or checks to write. With ServiceU's kiosk features, you can designate your kiosks for giving or event registrations—or both!

## Mobile Features Already Included

ServiceU's mobile features are already included—they're not add-ons. Your giving pages are automatically rendered web-friendly on a smartphone. When your donation page goes live for desktop or laptop givers, so will your mobile giving!

## Built-In Industry Security

As an online donations software company that is compliant with the Payment Card Industry (PCI), ServiceU makes sure every transaction that goes through our system is secure, accounted for, and efficient. We take our responsibility for keeping your transactions secure very seriously, and rigorous internal and external testing has shown our system to be extremely safe and secure.
